

LB & SCR Pullman "Pup" in ORIGINAL Livery  
KIT

LB & SCR Pullman "Pup" in ORIGINAL Livery  
KIT

This 1895 6-wheel van was equipped with a full width vestibules . The clerestory roof and Pullman outline was dictated by the wish that the vans should match the Pullman cars that they were built to service . The LB & SCR was a pioneer in electric lighting on trains, and this van provided the means and source of generating power. The large dynamo was situated within the van and was driven by belts from a pair of pulleys on the centre axle . Luggage and guard facilities were also provided . Van No 29 was built to operate with 'Pullman Train No 2' which comprised *Duchess of York*, a buffet car; *Her Majesty*, a parlour car; and *Princess of Wales*, the smoking car . This train was formed in 1895.

Livery In the period for the decals provided was Umber bottom half of sides and all of the ends and Ivory the top half . We are grateful for the assistance of Charles Long Chairman of the Pullman Society

# 'OO' Gauge LB & SCR Pullman "Pup" in ORIGINAL Livery KIT

**KIT £80.00 incl P&P**
